### **DETAILED ACTION**

# **Continued Prosecution Application**

1. The request filed on 04 April 2001 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 09/349,954 is acceptable and a CPA has been established. An action on the CPA follows.

#### Status of Claims

2. Claims 26, 43 and 44 have been amended and claim 45 has been added as requested in paper #13, filed 04 April 2001. Claims 26-28, 30 and 43-45 are pending in the instant application.

#### Oath/Declaration

3. The Declaration is objected to because it has an address for the inventor Gunther Weber which is illegible. It appears that the Post Office Address was corrected with correction fluid, but the previous address is showing through, which makes the correct address illegible. Correction is necessary.

# Drawings

4. Figure 8 of the instant application is presented on separate pages. Although Figures 8A and 8B are correctly labeled according to 37 C.F.R. § 1.84 (U)(1), which requires that when partial views of a drawing which are intended to form one complete view must be identified by the

Art Unit: 1647

same number followed by a capital letter, the Brief Description of the Drawings at page 10 does not properly refer to the Figures, in that lower case letters are used. Correction is required.

Figures 1-6, 9-11, and 16-17 of the instant application are presented in separate panels or on separate pages. 37 C.F.R. § 1.84(u) (1) states that when partial views of a drawing which are intended to form one complete view, whether contained on one or several sheets, must be identified by the **same number followed by a capital letter**. The instant application uses the format of a number followed by lower case roman numerals. Applicant is reminded that once the drawings are changed to meet the separate numbering requirement of 37 C.F.R. § 1.84(u) (1), the specification should be amended to change the Brief Description of the Drawings and the rest of the specification accordingly. If, for example, Figure 1 is divided into Figures 1A, 1B, 1C, and 1D, then the Brief Description and all references to this figure in the specification must refer to Figures 1A, 1B, 1C and/or 1D.

# Specification

5. The title of the invention is not descriptive (i.e. "Novel growth factor ..."). A new title is required that is clearly indicative of the invention to which the claims are directed.

# Claim Rejections - 35 USC § 112

6. Claim 44 recites a nucleic acid which "hybridizes under low stringency conditions". There are several factors which affect the hybridization of nucleic acid molecules and there are a

Art Unit: 1647

multitude of conditions which may or may not be considered stringent because stringency is a relative condition. Without some sort of guidance or definition in the claim of what this term is meant to encompass, the metes and bounds of the claim cannot be determined, thereby making the claim indefinite.

# Allowable Subject Matter

- 7. Claims 26-28, 30 and 43 are allowed.
- 8. Claim 45 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christine Saoud, Ph.D., whose telephone number is (703) 305-7519. The examiner can normally be reached on Monday to Friday from 7AM to 3PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Kunz, can be reached on (703) 308-4623.
